

Scientific Institute of Public Health
(Belgium)

In collaboration with,

Research Unit of Analysis and Process
Applied to the Environment

UR17ES32-ISSAT –Mahdia

Organizes:

**INTERNATIONAL CONFERENCE ON
ENVIRONMENTAL POLLUTION,
RISK ASSESMENT AND REMEDIATION**

(ICEPRAR2018)

(Mahdia - Tunisia, 19-20 April 2018)

1st CALL FOR PAPERS

Introduction

Environmental pollutants can originate from manmade activities or can be naturally present in the environment. They might be present in the soil, water, air and can enter the food chain. The population might get exposed to these pollutants via inhalation, contaminated food and water or through skin contact.

The presence of these contaminants in the environment and the food web might have an important environmental and public health impact.

Scope

The ICEPRAR conference brings together scientists from academia, laboratories and industry, control authorities and representatives of national and international agencies from Europe and Africa to exchange scientific results and to discuss chemical contamination of the environment and the food chain, environmental remediation, risk assessment and public health impact.

The objectives of the symposium are:

- Analysis of contaminants
- Sampling techniques
- Development and validation of new measurement techniques
- Bio-sensors
- Biological indicators
- Occurrence and concentration of pollutants in soil, water, air, wildlife and food
- Toxicology
- Exposure and risk assessment
- Environmental and health impact assessment
- Epidemiological studies
- Environmental remediation
- Environment and food chain legislation

International Advisory Committee

Water, Air, Soil and Food contamination

- Prof. Joris Van Loco (BEL)
- Prof. Ahmed Abdallah (QAT)
- Dr. Jose Luis Balcazar (ESP)
- Dr. Tim Reyns (BEL)
- Prof. Nizar El Khodhari (SAU)
- Prof. Harrison Pienaar (RSA)
- Prof. Aziz Amine (MAR)
- Prof. Benachir Bouchikhi (MAR)
- Dr. Silvia Díaz Cruz (ESP)

Environment and Health Impact

- Prof. Hedi Ben Mansour (TUN)
- Prof. Olivier Sire (FRA)
- Prof. Milad Fakhri (LBN)
- Prof. Alan Baker (GBR)
- Prof. Giuseppa Di Bella (ITA)
- Prof. Basem Shomer (QAT)
- Prof. Caterina Faggio (ITA)
- Prof. Marc Elskens (BEL)
- Prof. Véronique Le tilly (FRA)
- Prof. Adel Nefzi (USA)

Environmental Remediation

- Prof. Ranya Amer (Egy)
- Prof. Ridha Mosrati (Fra)
- Prof. Ameer Cherif (Tun)
- Prof. Bechir Ben Hassine (Tunisia)
- Prof. Hayet Gouillaud-Djelal (France)
- Prof. Nicolas Kalogerakis (Greece)
- Prof. Klaus Kümmerer (Ger)
- Prof. M. K. Mihoubi (Alg)
- Dr Salem Fathallah (Tun)

Submission of Abstracts

During the symposium the opportunity is offered to scientists to present their research findings during oral or poster presentations.

A one page abstract should be submitted before **15 January 2018**.

Registration

Online registration: <http://iceprar2018.wiv-isp.be>

-Price: €100€

Tunisian students and academics: 100 DT

Deadline for registration: **1 March 2018**

Language of the conference: English

No simultaneous translation will be provided.

The registration fees covers participation in all the conference sessions, a copy of the proceedings, refreshments, lunches, conference dinner and a two nights stay at the hotel.

Contact: ICEPRAR2018@wiv-isp.be

Venue

The conference will be held at Mahdia Palace hotel, Mahdia, Tunisia

Acknowledgement

The symposium is organized in the framework of the project "Impact of Water Pollution on Public Health in Northern Africa" H2OPOL and was financed by the Belgian Science Policy (BELSPO).
